GRADUATING EXERCISES
AT MADISONVILLEClass Address Delivered by Pres-
ident of Belmont College,
Dr. Ira D. Landreth.ALUMNAE BANQUETS
"GRADS" OF 1911.

The graduating exercises of the Madisonville High School were conducted at the First Christian church in this city Thursday evening, May 18.

As an introductory, the High School orchestra rendered several most excellent selections, after which the valedictory address, "High Ideals," was ably delivered by Herschel Scott.

Dr. Ira D. Landreth, president of Belmont College, Nashville, Tenn., one of the brainiest men of the Southland, delivered the class address, in which he plead with the young people "to give up small affairs and to do things in the world that count," urging them to finish their course by entering some good college and complete their education, so that they then would be competent to enter some specified vocation in life; that there was an abundance of room at the top of the mountain for those who persistently struggled to scale the heights of ignorance and rise to perfection physically, morally and mentally. Dr. Landreth clothed these excellent thoughts in the most beautiful and impressive language.

Following this address, Hon. Lee Gibson, a member of the school board, presented the diplomas to the following graduates: Herschel Scott, Lella Harris, Marion Rudy, Gordon Gold, Virginia McGary, Roscoe Eastwood, Lucy Fawcett, George Arnold and Elsie Morrow.

After which they repaired to the immense dining room of the church, where a most elaborate banquet was given by the members of the Alumnae Association in honor of the "grads" of 1911, the speakers of the evening, the High School teachers, and the ladies and escorts of the members of the Alumnae Association.

The banquet, as served by the Ladies' Aid of the Christian church, was most excellent throughout its seven courses and without a single exception was as elaborate a banquet as ever given in this part of the State.

The place cards were an artistic piece of work, being hand painted in the class colors, with "M. H. S. '11" done in the class colors and etched in gold. Carnations were given as favors.

The room presented a most beautiful scene, being gorgeously decorated in quantities of roses, carnations, ferns, potted plants and Southern smilax. Floral baskets, seemingly attached to ropes of Southern smilax, were suspended from the ceiling, while the windows were banked in masses of greenery.

The long tables were artistically arranged in vases of roses and carnations, intertwined with ropes of Southern smilax, strewn with flowers—completing a beautiful floral chain—which formed a long base for the high pedestal arrangement of flowers.

Prof. Delmont Utley, the efficient toastmaster for the occasion, presided with much dignity, as he announced the subjects of the following speakers:

"Our Golden Milestone"—Miss Virginia Tate, '10.
"The Friendly Beacon"—Miss Virginia McGary, '11.
"Quo Vagarentur"—Miss Mary Shacklett, '07.

"The Candle Not Under a Bush"—Miss Aileen Gold, '09.
"Possession"—Miller Evans, '10.
"A Rejuvenation Not Found in History"—Ralph B. Rubins.

Following are the graduates: Herschel Scott, valedictorian, Lella Harris, salutatorian; Gordon Gold, Elsie Morrow, Marian Rudy, Roscoe Eastwood, Lucy Fawcett, Virginia McGary and George Arnold.

Those present at the banquet were: Dr. Ira D. Landreth, Nashville, Tenn.; Prof. and Mrs. B. B. Rubins, D. Utley, W. J. Cox, Mr. and Mrs. J. B. Ross, Herschel Scott, Agnes Bailey, Gordon Gold, Frances Elgin, George Arnold, Inez Elkin, Roscoe Eastwood, Margaret McPherson, Lella Harris, Casper Lynn, Lucy Fawcett, James Sory, Virgin-

ia McGary, Roy Davis, Marian Ruby, Basil Ramsey, Elsie Morrow, Langley Hoffman, Miller Evans, Elizabeth Kemp, Harry Palfater, Metabeth Sory, Gladys J. Jor, Herschel Logan, Mary Bell Todd, Lloyd Cardwell, Virginia Tate, Felix Martin Aileen Davis, B. C. McEuen, Margaret Victory, Ben Evans, Florence Campbell, Fay Ashby, Isabel Gardiner, Roy Wilson, Ellie Gardiner, Dr. Roy Robinson, Leo Salmon, Louise McPherson, Lena Pritchett, David Ashby, Lena McGary, Paul Livingston, Hazel Fawcett, J. M. Hoffman, Elnora Smith, Sam Arnold, Sarah Hayes, Fred Bailey, Elizabeth Givens, George Kirkwood, Mary Louise Walker, Herschel Wilson, Archille Melton, Torian Tate, Aileen Gold, Cliff Pritchett, G. D. Collins, Olyn Pritchett, Mr. and Mrs. B. C. Mitchell, Mr. and Mrs. Chas. Young, Mrs. Bevard Harris, Mary Shacklett, Miss Harp Eblin.

Headaches Signs of Danger.

Anyone in this town that suffers frequently from splitting, nervous headaches ought to go at once to the druggist and get a 25c bottle of our Carlsbad's German Liver Powder. Headaches always indicate constipation in a dangerous form, that may result in other extremely serious ailments—sometimes even Bright's Disease and Appendicitis. Our Carlsbad's German Liver Powder acts on the liver, the real cause of constipation—a few doses entirely remove the trouble—insure a lasting cure—never fails—guaranteed—if you have headaches, get a bottle today from the St. Bernard Mining Co., Incorporated, Drug Department. 25c a bottle.

Aviation Meet in Evansville June 9 and 10th.

A great Aviation Meet will be held in Evansville Friday and Saturday June 9 and 10. At that time two of the most famous of the Curtiss School of Aviators will come to give demonstrations of what the up-to-the-minute birdmen have done toward the complete conquest of the air, and to entertain thousands of spectators with exhibitions of fancy flying and attempts at altitude records.

Interest will undoubtedly center in the altitude flights, which will be made by the Aviators and should the air currents be favorable it is expected that some very high flights will be made and possibly record smashing events take place. The Curtiss Aviators have established themselves thoroughly in the world of Aviation as men of fearless ability and they have been recognized as especially able to accomplish altitude flights.

A feature of exceptional interest will be bomb dropping contests between the Aviators. Competition among the Aviators for scores in this contest will, of course, be keen, and the public will be given a great treat.

In addition to the bomb dropping events, five other sensational features will be introduced on the program, any one of which will be worth far more than the 50 cents which will be charged for admission to the grounds.

The Curtiss machine today holds the record for quick flights from the ground, this record having been established by Glenn Curtiss at a recent Aviation tournament on the Pacific Coast.

All transportation lines are making reduced rates to Evansville for the big meet June 9 and 10th.

Lively as a Boy.

If you are tired, run down, have no appetite, get a bottle of Yacatan Chili Tonic. A few doses will set you up—give you a boy's appetite—make you strong and lively as a twelve-year-old. Purifies the blood and strengthens the system. 50c a bottle at the St. Bernard Mining Co., Incorporated, Drug Department.

DOG LED THE WAY.

To Masters Body Floating in the River.

Elmer Richards, a lad living in Henderson county, ran away from home, fearing that he would be punished for some mischief. When he did not return search was made, but no trace of the boy was found until his dog came running up with the lad's cap in his mouth. He led the searchers to the back waters of Green River, where they found the boy's body floating in the river.

J. M. Howell, a popular druggist of Greensburg, Ky., says, "We use Chamberlain's Cough Remedy in our own household and know it is excellent." For sale by all dealers.

EARLINGTON SCHOOL
VISITORS' DAYExercises Well Attended and
Proved Very Interesting.WORK OF PUPILS
SHOWS CLOSE APPLICATION.

Yesterday was visitors' day at the school building and those who availed themselves of this opportunity of witnessing the work of the different grades, were well pleased with showing made. The drawing, maps, cutout work, problems and writing all proved that the pupils had closely applied themselves, and also that competent and enthusiastic teachers had them in training. The visitors were met at the door of different rooms by the teacher and a reception committee of three pupils and were conducted around the room and given an opportunity to closely examine the work on exhibition. Each visitor was requested to register in a book provided for the purpose. The various rooms were decorated with beautiful flowers and ferns.

The final examinations will begin today and continue until Friday, May 26. On Thursday, May 25, "Snap Shots" will be given under the auspices of the school at Temple Theatre and as usual the house will be packed by parents and friends of the pupils.

Commencement exercises will be held Tuesday evening, May 30, at Temple Theatre and Dr. H. D. Smith, a well known Christian minister of Hopkinsville, will deliver an address.

TWO EXPOSITIONS
WILL BE HELDIn California in 1915 to Celebrate
The Opening of the Panama Canal

JOINT RESOLUTIONS PRESENTED.

Washington, May 22—A joint resolution has been presented to Congress authorizing and requesting the President to issue an investigation to the Republic of Mexico, and the Republic of Central and South America to participate in an exposition to be held in San Diego, California, throughout the entire year of 1915, and there is every reason to believe that the resolution will be passed at the extra session.

It came as a surprise to some of the senators and congressmen to learn that two expositions are to be held in California in 1915, and both for the purpose of celebrating the opening of the Panama Canal, but the representatives of the San Diego project, now in Washington were able to show an agreement entered into between the two exposition organizations in California, whereby the San Francisco organizers agreed to assist the San Diego people to get the present exposition resolution through, after San Francisco had secured federal recognition for her exposition. This agreement was signed more than a year ago.

There is no opposition to the San Diego exposition resolution apparent. Senator John D. Works, of California, one of the Progressives, introduced it in the Senate, and Congressman Raker, from one of the Northern California districts, and a Democrat, introduced it in the House.

Col. D. C. Collier, of San Diego, Director General of the San Diego exposition, who heads a delegation of San Diego citizens and exposition officials now in Washington, explains that San Diego was first in the field with a project to celebrate the Canal opening by an international exposition, and that San Diego has never let up on the project since it was started. Following the signing of the agreement with San Francisco, San Diego consented to keep its project in the background until San Francisco had won its recognition from the government, but during that period San Diego proceeded to complete an organization of exposition workers, which contains John C. Olmsted, of Boston, celebrated landscape architect, who is laying out the exposition grounds in Balboa Park, in San Diego; Bertram G. Goodhue, greatest exponent of Spanish-Colonial architecture in the world, who is designing buildings to form the great "Mission City," that will house the San Diego exposition, and Frank P. Allen, Jr., who will be director of Works, and who was selected because he was the man who completed the Alaska-Yukon exposition in nineteen months, and had it ready on time.

Director General Collier has assured the members of Congress that San Diego is not intending to rival San Francisco in the matter of an exposition, but will build and open an exposition that is to be entirely unique, and different from any other exposition ever held. It is not to be a "sideshow" to San Francisco's exposition, either, but a great spectacular and artistic exposition, with the biggest Indian Congress ever held as one of its attractions. The city of San Diego already has raised \$2,000,000, and placed it in the hands of the exposition organization for preliminary work. The State of California has pledged half a million more.

MRS. LACEY GIVEN CUSTODY

Of Her Eleven Year Old Daughter by
the Court.

Acting Judge Hawkins, of the Circuit Court Evansville Saturday gave Mrs. Lacey who was formerly Mrs. Fenwick the custody of her 11 year old daughter Mamie who was kidnapped from her grandmother Mrs. Mary Fenwick at this place about two months ago. Mrs. Fenwick died here a few weeks since and with the grandmother dead and the child's father in Springfield, Ore., the mother was the only applicant for little Mamie Fenwick.

The child's father and mother separated in 1908 and Mrs. Fenwick secured a divorce in the same year, but the child was awarded to the grandmother and father. Mrs. Fenwick married Lucian Lacey, an Illinois Central switchman, 26 Fountain-ave, some time later and it was agreeable to him that the mother secure possession of the child. Then it was that the kidnapping took place. On her return to Evansville with the girl Mrs. Lacey engaged Phil O. Gould to prosecute her suit for possession and all opposition was wiped away by the grandmother's death.

DR. LEWIS P. CRUTCHER

Former Earlington Resident and
Druggist has Achieved
ProminenceHOMESPATH PLEADS "MEDICAL
FREEDOM" IN LECTURE TOUR.

Dr. Lewis P. Crutcher, who some 18 or 20 years ago was an Earlington boy and clerk in the St. Bernard drug store, has since achieved eminence in his profession as a physician of the homeopathic school. He became president of a school of Medicine at Kansas City, his home, but, through his standing in his profession and his frequent articles contributed to medical journals, he has come into national prominence. He accepted a call to go to New York and become director of the National League for Medical Freedom and has for some time since been touring the United States and delivering lectures for the league. Dr. Crutcher will be most pleasantly remembered by many Earlington people.

The following, clipped from the Indianapolis Star on last Friday, tells something of Dr. Crutcher's work:

"That the American Medical Association seeks to make its practice and theories compulsory because it fears that if those who disagree with its system of practice are given a chance to demonstrate the merits of their own systems, the result will be disastrous to the society, was one of the charges made last night by Dr. Lewis P. Crutcher, of Kansas City, Mo. Dr. Crutcher was speaking at the initial meeting of the Indiana branch of the National League for Medical Freedom of the Auditorium of the Indiana Pythian building.

Dr. Crutcher explained that the objects of the medical freedom movement was to give every man the right to choose his own physician, and to practice and cure as he believed best. Answering charges that the movement was backed by patent medicine concerns; that it was a Christian science movement; that it was fighting particular branches of medical practice, and that its objects were to repeal the pure food and drug act, Dr. Crutcher emphatically denied them, and issued a challenge to any one to prove the charges.

See "Political Coterie."

"The efforts of the American Medical Association to have a national department of health created, he said, might be compared to an effort to unite the State and the church. The result of uniting the state and medicine, Dr. Crutcher held, would be detrimental to the latter. He said that competition should determine which system was the best.

"The movement is not confined to doctors, but is backed by laymen, he said. The majority of the members are laymen, and the league has no fight against any 'school' or system, except what Dr. Crutcher called the 'political coterie' of the American Medical Association, which he said was attempting to meddle in politics. He said he believed that by the end of the year the membership of the league would include hundreds of thousands.

A man who lives in India for many years tells an interesting story of the cleverness of an elephant which he owned. This man had two small sons, to whom the elephant took a great fancy, and was so devoted that the father felt perfectly safe in leaving his little boys in his care.

One day the elephant and the two boys went on a tramp together. They remained away so long, however, that the father became anxious and finally went out to look for them. After searching for some time he came to the river bank, and there a funny sight met his eyes.

The great elephant was standing knee-deep in the mud, with a happy small boy squatting on either side of him, and all three were fishing just as hard as they could. The boys held their rods in their hands, and their companion held his with his trunk. By and by the elephant's line gave a flop, and the boys crowded up to see whether it really meant that he had caught a fish. He had and while the big brute watched them solemnly, they pulled out the line detached the fish, and then, putting on another worm, gravely handed the rod back to its owner.—The Herald and Presbyter.

DON'T NEED WALKING STICK

Americans Do Not Often Carry It, but Is a Matter Purely of Personal Choice.

Now that we are reminded of it, we realize that the great American people are seldom seen to possess a walking stick. "It's a small thing," writes an essayist in a morning paper, "the absence of the walking stick, but it belongs to the American motto, never, in the hustle of life, carry unnecessary cargo." The idea is, of course, fantastic with the fantasy of transatlantic common sense. The hustle of life surely extends to travel in the case of a nation which would consider itself degraded if it spent longer than a week in a complete journey through Europe; and when Americans travel they are the last to deny themselves the luxury of an extra bit of luggage because it happens to be unnecessary. It is common knowledge that they go on loading the liner trunks until the company's officials say "Stop," if only to collect so many more steamship and hotel labels to add to their already bloated store of these trophies. No. The walking stick is a matter purely of personal choice. Most Americans chance to feel no need for a walking stick, whereas we do. That is how the thing stands. When it comes to a walking stick the world must be considered individually. The physical weakling is quite likely to have a taste for a gigantic club; the enormously powerful man who snaps his Sandow developer before breakfast as though it were a piece of cotton may select for a walking stick the thinnest shred of malacca that money can buy.—London Globe.

Bismarck Was Superstitious.

The great Prince Bismarck was not without superstition and this always was noticeable on the eve of the new year. From nine o'clock that night until after midnight he would not take water in any circumstances from a glass. It was an ancient tradition in the chancellor's family that anyone who set the legend at defiance would pass through a serious illness.

J. T. Alexander, of Madisonville, was here Monday on business.

How to Cure Chronic Colds and Bronchitis

Bluevale, Ont., May 4, 1910.

"I was sick for two years with a chronic cold and bronchitis and a consequent run-down condition. I received no benefit from doctors, and had to give up work. VINOL was recommended and from the second bottle I commenced to improve—I gained in weight and strength, my cold and bronchial trouble disappeared, and I am at work again. I want to recommend VINOL to anyone who is in need of such a medicine."—THOMAS HIGGINS.

It is the combined action of the curative elements of the cods' livers aided by the blood making and strength creating properties of tonic iron contained in VINOL which makes it so successful in curing stubborn colds and bronchitis. VINOL is a constitutional remedy for chronic coughs, colds, bronchitis and pulmonary troubles, not a palliative like cough syrups.

Try a bottle of VINOL. If you don't think it helped you, we will return your money. ST. BERNARD MINING COMPANY, Incorporated, Drug Department.

Atlanta Brood Coop

MADE OF HEAVY GALVANIZED IRON

We Claim for this Coop Many Advantages Over Any Other on the Market

FIRST: They are collapsable, and can be put away in the fall in a few minutes in a very small space and reassembled when needed in two minutes each.

SECOND: The sanitary features of these coops cannot be excelled, as the ventilation is perfect and the bottom can be removed in one minute without any trouble, quickly cleaned and replaced, without removing any other section of the coop, as there are no bolts, screws, hinges or fastenings to bother with. Lice or vermin will not harbor in galvanized iron, there being no crevices in which to secrete themselves and multiply nor for disease germs to find a lodging place. These coops are absolutely proof against Rats, Weasels, Minks, Skunks and other chicken eating animals. Government statistics show that rats destroy more chickens every year than every other agency.

THIRD: It is made of heavy Galvanized Iron and is as rigid as a wooden coop, but does not hold dampness, it is also absolutely weather proof, even in the most driving rain. It is as cheap as any wooden coop and has many advantages not found in them. The different doors can be set in an instant and will remain when placed until changed.

FOURTH: Made in two sizes with 8 and 9 inch revolving doors.

HOW SHE WAS SQUELCHED

English Traveler Tells of His Silencing
of Obnoxious Woman on the
Atlantic Liner.

He was an English world traveler,
and he had written a book, but there
was a certain dame he had never for-
gotten. He had met her on a voyage
from New York to Liverpool. Said he:

"She became obnoxious from the mo-
ment we put out to sea. Her constant
references to her husband, Cyrus, who
had made his pile very quickly—too
quickly for the lady to do more than
buy fine feathers for the adornment
of a very ordinary bird—were nause-
ating. I shouldn't have cared if she
hadn't sat at my table—right opposite
me.

"The mutton was brought on as we
were nearing England. It was cut in
generous slices—and very delicious.
"Why," she said, cutting into a slice,
"this mutton is too thick. Cyrus cuts
mutton thin as a wafer."
"No one paid any attention, appar-
ently, but I heard—and was disgusted.
She repeated, 'Cyrus cuts mutton thin
as a wafer,' so many times that I could
stand it no longer. Such ignorance
needed to be dealt with. I leaned for-
ward, looked her squarely in the eye,
and then said, deliberately:

"Madam, in England—mutton is
cut thick." And she didn't mention
Cyrus again."

It was great to hear him tell it.
How he had squelched her with those
six words, uttered slowly and impres-
sively. No wonder they had sil-
enced her!

Saved Many From Death.

W. L. Mock, of Mock, Ark., be-
lieves he has saved many lives in
his 25 years of experience in the
drug business. "What I always
like to do," he writes, "is to recom-
mend Dr. King's New Discovery for
weak, sore lungs, hard colds,
hoarseness, obstinate coughs, la-
grippe, croup, asthma or other
bronchial affection, for I feel sure
that a number of my neighbors are
alive and well today because they
took my advice to use it. I honest-
ly believe it's the best throat and
lung medicine that's made." Easy
to prove he's right. Get a trial bot-
tle free, or regular 50c or \$1.00 bot-
tle. Guaranteed by all druggists.

Is there anything in all this world
that is of more importance to you
than good digestion? Food must be
eaten to sustain life and must be
digested and converted into blood.
When the digestion fails the whole
body suffers. Chamberlain's Tab-
lets are a rational and reliable cure
for indigestion. They increase the
flow of bile, purify the blood,
strengthen the stomach, and tone
up the whole digestive apparatus to
a natural and healthy action. For
sale by all dealers.

Time Saving.

A new variation of the now long
familiar "while you wait" sign is
found in an uptown avenue where a
barber shop and a tailoring shop
stand side by side. In front of the
building hangs a sign on which are
displayed the name of the barber
concern and the name of the barber
shop and this announcement:
"Suits cleaned and pressed while
you are getting shaved."

PHILOSOPHICAL

"My little man, don't you think your
time would be better employed in
Sunday school?"

"I guess you're right, old Hom, I
ain't got a bite all day!"

When the baby takes too much
food the stomach turns; the result
is indigestion, sourness and vomit-
ing. Frequently the bowels are in-
volved and there is colic, pains and
diarrhoea. **McGEE'S BABY
ELIXIR** is a grand corrective reme-
dy for the stomach and bowel dis-
orders of babies. It is pure, whole-
some and pleasant to take. Price
25c and 50c per bottle. Sold by St.
Bernard Mining Co., Incorporated,
drug department.
